Remark:

- 1. Color Accuracy**
- Printed colors may vary slightly from screen display due to printing and paper material differences.
 - Deep or full-color backgrounds (especially dark red, navy, or black) may appear slightly darker or less vibrant after printing.
 - Reprints or different batches may show minor color variation.
- 2. Die-Cut & Cutting Tolerance**
- Die-cut and trimming may have a tolerance of $\pm 1-3$ mm.
 - Please avoid placing important text, logos, QR codes, or design elements too close to the cutting line.
 - Slight alignment differences may occur during finishing and die-cut processes.

The sizes listed above are the most commonly selected options. Final dimensions should be determined based on your booth design, event setup, and intended display purpose.
